SOURCES OF Protein

Fish & Seafood

Dairy

Eggs

Red Meat

Quinoa

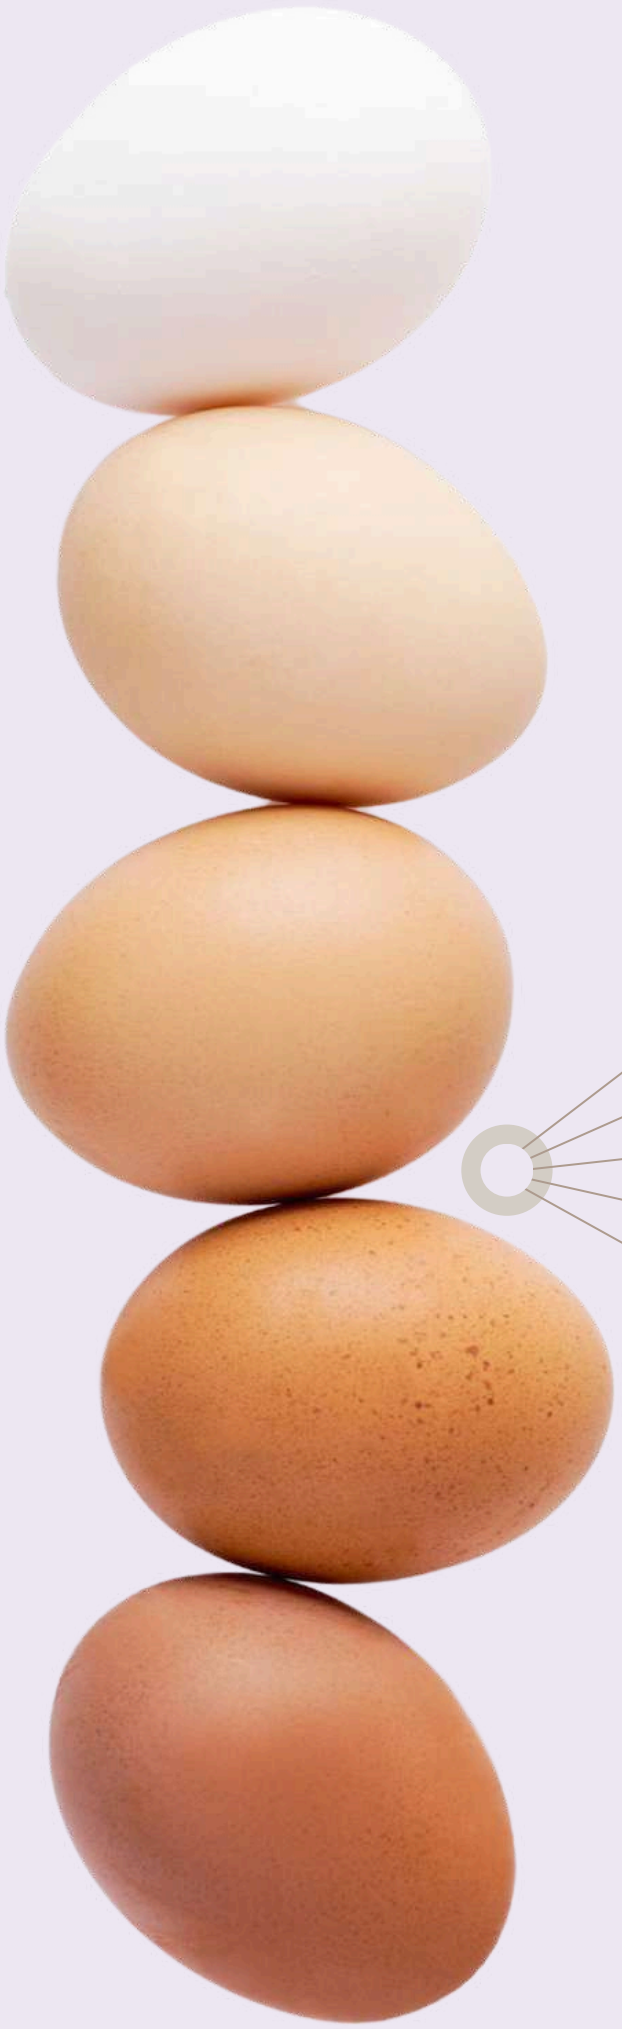
Nuts & Seeds

Tofu

Beans

Chicken

Lentils



Benefits of EGGS

- Provides excellent quality protein
- Improve levels of "good" cholesterol
- Great source of antioxidants
- Rich in most vitamins & minerals
- Improves overall health

Benefits of Blueberries

Packed with vitamins & mineral

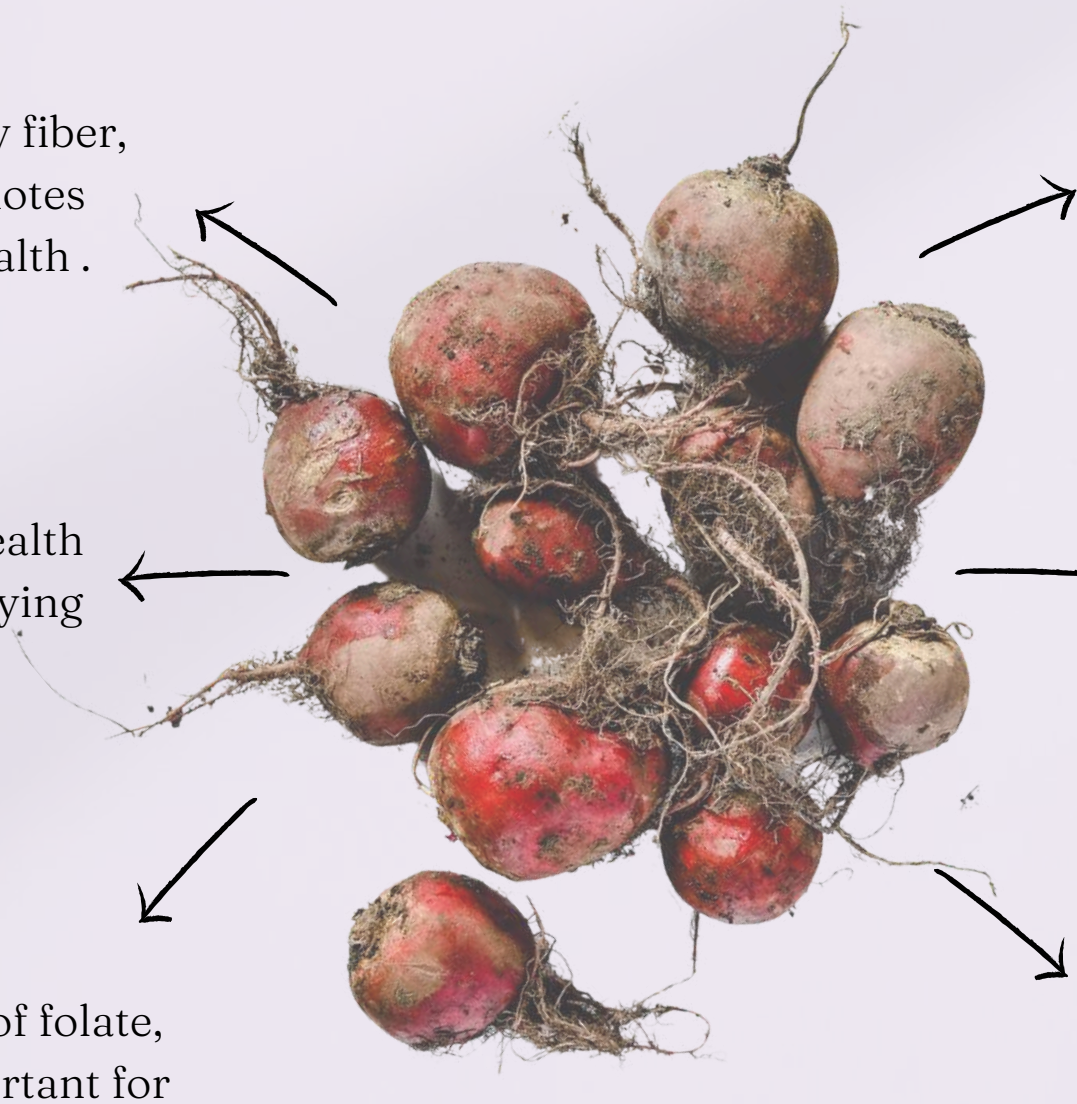
Rich in antioxidants.

High in fibre for healthy digestion

Improve memory and brain function

Reduces inflammation and oxidative stress

6 benefits of Beetroot



Rich in dietary fiber, which promotes digestive health .

The nitrates in beets may improve brain function.

Supports liver health due to its detoxifying properties.

Supports cardiovascular health due to its high nitrate content.

great source of folate, which is important for healthy cell growth.

Low in calories, making it a great addition to a weight-loss diet.

4 benefits of
Dark Chocolate

Natural and Organic Ingredients

High in Antioxidants

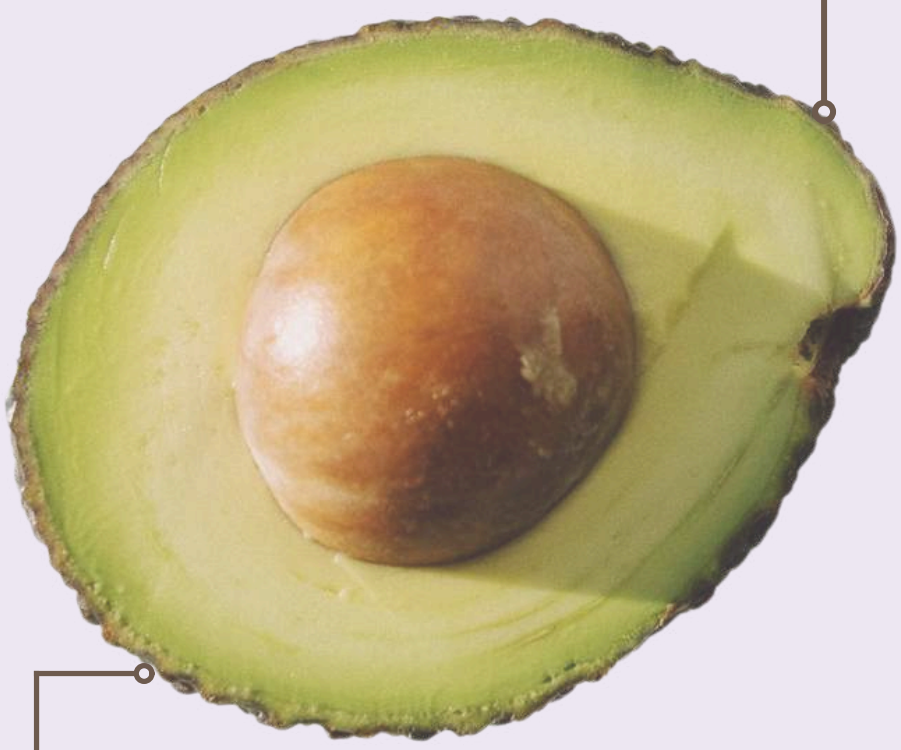
Supports Cognitive Function

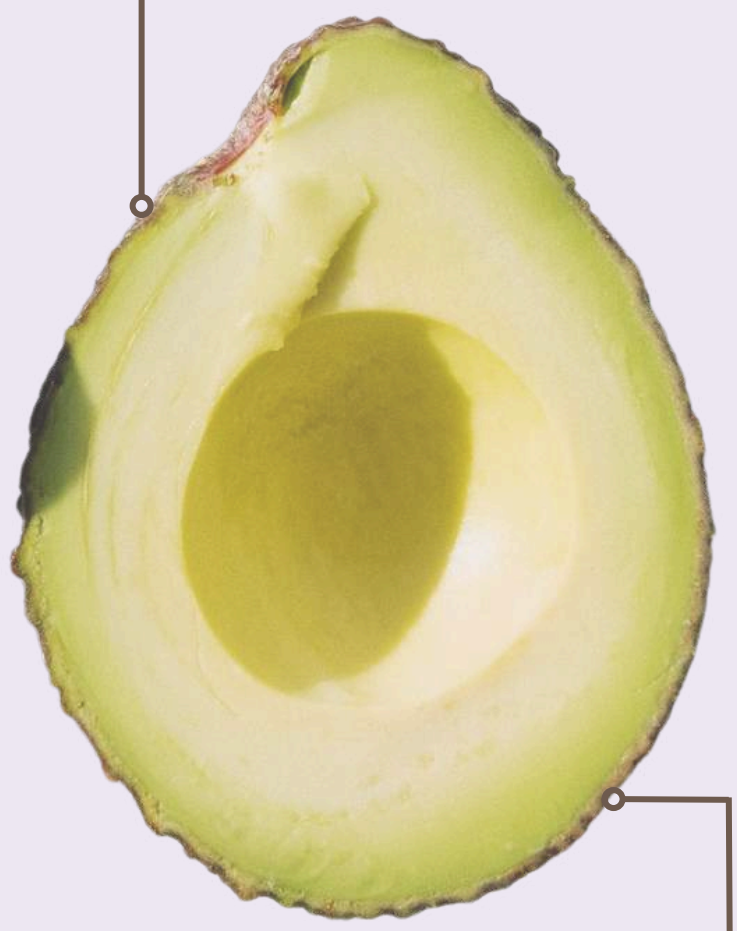
Supports Skin Health

4 Benefits of Avocado

They're rich in nutrients that are often lacking in many people's diets, including magnesium, B6, vitamin C, vitamin E, and folate

Avocados also contain high levels of phyto chemicals and carotenoids, which may have anticancer properties.





Avocados are high in fiber which is essential for a healthy digestive system.. Containing approximately 14g per fruit.

The vitamins, minerals, healthy fats, and fiber found in avocados all play a role in keeping the cardiovascular system healthy.
